ADMIN RECORD

Mr. Joe Schieffelin
Hazardous Waste Facilities Unit Leader
Colorado Department of Public Health and Environment
4300 Cherry Creek Drive South
Denver, Colorado 80222-1530

Gentlemen:

Enclosed for your approval is the Final Operable Unit 6 Feasibility Study Technical Memorandum (TM) 1: Development of Corrective/Remedial Action Objectives.

As discussed with your staff, some information upon which this TM is based is subject to change. These items include exposure factors used in calculating the open space/recreational PRGs, the radionuclide slope factors used in effective dose conversion calculations, and the chemical of concern list.

Rather than revise this TM to incorporate these changes, they will be reflected in the feasibility study.

The Department of Energy (DOE) will be seeking to schedule a meeting with your staff to present the information being used in the feasibility study.

Please provide approval of this document at your earliest convenience.

Sincerely,

Steven W. Slater

Steven W. Slaten
